

LPS Wireless System Monitor

The PumpStar LPS monitoring system provides real-time data that allows you to see pump status and alarms for your whole system at a glance. The user-friendly web portal is simple and intuitive, while providing a great deal of information at the same time. View your system from the convenience of your mobile device or personal computer.

*** NanoFlux Capacitor™**
*The PumpStar unit is equipped with our NanoFlux Capacitor™ technology (**patent pending**), eliminating laborious maintenance. Get power failure alarms without the need for batteries!*
